Dear Ms Cunningham

Anglican Schools System (16718) – needs-based funding distribution (Your ref: ED18/011173)

Anglican Schools Corporation (ASC) is the Commonwealth Approved System Authority for Anglican Schools Corporation schools.

Please be advised that, with regard to the matter of the distribution to Anglican Schools Corporation schools of Commonwealth general recurrent funding – having regard to needs-based funding requirements – ASC's current practice, in general, will be maintained.

That is, Commonwealth recurrent funding attributable to the System will be distributed to each school under the needs-based funding arrangements set out in section 78(4) of the *Australian Education Act 2013* (the Act) and the *Australian Education Regulation 2013*.

Should future changes take place to the needs-based funding arrangements set out in the Act – for example, consequent to the work of the National School Resourcing Board – Anglican Schools Corporation may seek to amend its needs-based funding arrangements.

A copy of this letter will be published on the ASC website at <http://www.tasc.nsw.edu.au/publications>. In addition, a member of the public may request a copy of ASC's needs-based funding arrangements (contained in this letter) by contacting ASC's Group Office at the address shown in this letter.

Yours faithfully

Ross Smith
Chief Executive Officer
